

MEDICAL INFORMATION AND EXECUTIVE LEADERSHIP FELLOWSHIP

phactMI, in conjunction with the Ernest Mario School of Pharmacy, is offering a two-year fellowship.

Who we are

- phactMI provides timely, scientifically balanced and evidence-based information
- phactMI supports the safe and effective use of pharmaceutical company products
- phactMI member companies provide a customer facing capability that interacts with Physicians, Pharmacists, RNs, PAs, NPs, Payers and Consumers

What we provide

Clinically Supported and
Unbiased Medical Information

Developed by Highly
Credentialed Medical Experts

Comprehensive, Current and
Scientifically-Accurate

ABOUT PHACTMI

phactMI, a 501 (c)(6) corporation, is a collaboration of pharmaceutical company Medical Information (MI) leaders that are dedicated to supporting healthcare professionals in their commitment to provide quality patient care.

At phactMI, we understand that healthcare professionals have a wide range of medical information needs, and we are supportive of the spectrum of drug information providers.

As a consortium of MI departments of multiple pharmaceutical companies, phactMI is in a unique position to provide support to them.

phactMI.org can help healthcare professionals access current, accurate, and scientifically-balanced medical information, helping them to make informed clinical decisions in patient care.

phactMI™ exemplifies how pharmaceutical company collaboration can bring value to patient care by creating a convenient and reliable resource for healthcare professionals when making treatment decisions.

Value of phactMI

We Recognize

Trusted sources of credible information matter to you.

We Understand

As the innovator of these medicines, we are driven to bring you transparent, evidence-based medical information consistent with our Code of Practice.

We Created

A consortium of medical information leaders who are dedicated to sharing clinical data on innovative medicines that other sources cannot provide.

We Deliver

Customized, curated, comprehensive medical information beyond “just the label” through a centralized platform for healthcare professionals.

Member Organization

MEET THE PRECEPTORS

Evelyn R. Hermes-Desantis, PharmD, BCPS

Evelyn R. Hermes-DeSantis has over 25 years of experience in drug information and teaching fellows, residents and students. She is the Director of Research and Publications for phactMI and Professor Emerita at Rutgers, The State University of New Jersey, Ernest Mario School of Pharmacy.

Patrick Reilly, CEO of phactMI

Patrick Reilly has over 30 years of experience within the pharmaceutical industry. His area of focus and expertise is Medical Affairs functional capabilities, where he helps organizations harmonize and transform those capabilities to enhance efficiencies, increase productivity, and create value.

Sonia Sandhu, PharmD

Sonia Sandhu is a Director of Global Medical Information at Gilead Sciences overseeing COVID-19 and Liver Diseases therapeutic areas. Sonia has 14 years of experience in Medical Information and Medical Affairs across multiple therapeutic areas and is actively involved in phactMI, Drug Information Association and Patient Focused Medicines Development. She is also on the COVID-19 Patient Engagement Committee focusing on the Medical Information patient journey throughout the life cycle of remdesivir. Sonia received her Bachelor of Science in Biological Sciences from the University of California, Davis and Doctor of Pharmacy from Midwestern University.

Marie-Ange Noue, PhD

Marie-Ange Noue is a PhD Chemist trained at Curie University in Paris and at the University of Houston. She has been with EMD Serono since 2008, where she's held a number of positions of increasing responsibility within Medical Information and Pharmacovigilance. In her current role as Senior Director, Head of Scientific Communications, she provides strategic leadership and oversight for activities related to Medical Information, Medical Communication, Medical Training, and Medical Education.

Marie-Ange is very engaged in diversity, equity and inclusion. She is the founder of the Leaders of Color Action network, a North American initiative driving efforts to create a more inclusive work environment for diverse employees.

Marie-Ange serves on the Executive Board of phactMI.

MEDICAL INFORMATION FELLOWSHIP

Time Frame

- Year 1
 - 6 months with phactMI
 - 6 months onsite with Member Company A
 - Timeframe: 12 months—July 2022 – June 2023
- Year 2
 - 6 months onsite with Member Company B
 - 6 months with phactMI
 - Timeframe: 12 months—July 2023 – June 2024

Objectives

phactMI

- Support phactMI by providing medical/scientific expertise as well as a pharmaceutical industry perspective on a number of initiatives across various committees including Insights Capabilities, Technology, and Partnerships.
- Develop leadership skills through interaction with phactMI Board of Directors, Project Management Office, and executive member representatives.
- Enhance written and verbal communication skills through the development of papers and presentations for the phactMI Board of Directors, phactMI member company meetings, and regional, national and international meetings such as DIA and other organizations.
- Support the operational function of phactMI through participation on committees and leadership of important initiatives, managing 1-2 projects.
- Represent the collective industry challenges and propose innovative approaches to enable holistic solutions consistent with phactMI vision/mission.

Member Company

- Develop foundational skills and experiences consistent with creating unbiased and fair/scientifically balanced medical information communication relative to member company products:
 - Develop strong written and verbal communication skills
 - Develop strong literature searching skills and critically evaluate the scientific literature, data and evidence
 - Develop strong knowledge of industry standards and guidance documents
 - Review clinical data regarding marketed and investigational products and/or therapeutic areas of interest
 - Develop an understanding of how scientific documents are utilized by HCPs, including preferred format and desired channel (digital vs non-digital)
 - Provide Medical Information expertise and consulting relative to cross-functional medical and commercial activities
 - Support the overall operational function of a Medical Information department, including contact/call centers

Ernest Mario School of Pharmacy

Additional opportunities available through the School of Pharmacy include:

- Teaching and research opportunities
- Attending the Professional Development Days offered by the Rutgers Institute for Pharmaceutical Fellowships
- Participation in the Teaching and Learning Certificate Program
