April 17, 2017 – The Pharma Collaboration for Transparent Medical Information, known as phactMI™, appointed Patrick Reilly as Chief Executive Officer. Patrick was previously Vice President, Global Medical Information at Bristol-Myers Squibb.

In the newly created role, Patrick will report to the Board of Directors and be responsible for implementing the strategic goals and vision of the consortium while ensuring that milestones for ongoing growth and success are met.

“*My charge is to further evolve the consortium to enable greater transparency and access of medical information for healthcare professionals. Relevant, accurate, and timely information is the foundation of good medical information leading to better decisions.*”

phactMI is a collaboration of pharmaceutical company Medical Information (MI) departments that are dedicated to supporting healthcare professionals in their commitment to provide quality patient care. At phactMI, we understand that healthcare professionals have a wide range of medical information needs. phactMI.org is a unique portal that provides easy access for healthcare professionals to the resources of Medical Information departments of phactMI member companies.

**About phactMI**
